ROOMS OF THE CINCINNATI BRANCH U. S. SANITARY COM., }
Cincinnati, January 1, 1865. }

Resolutions containing the action of the Commission in reference to the following report, viz.:

November 17, 1864:

Resolved, That the Executive Committee prepare a report of the Receipts and Disbursements of our Commission, from its organization to the present time, suitable for publication. Adopted.

December 29, 1864.—The Executive Committee presented a report in accordance with the above resolution, which was adopted and ordered to be printed.

December 29, 1864:

Resolved, That the President be instructed to request the Chamber of Commerce to appoint a Committee to examine the foregoing report before publication. Adopted.

CORRESPONDENCE.

CINCINNATI BRANCH U. S. SANITARY COMMISSION, }
Cincinnati, December 20, 1864.

GEO. F. DAVIS, Esq., *President of Cincinnati Chamber of Commerce:*

Dear Sir: We have prepared for publication a financial report, which, before it is given to the public, we desire shall be verified by a committee from the Chamber of Commerce.

Will you have the kindness, at your earliest convenience, to appoint such committee, and oblige,

Yours truly,

R. W. BURNET, *President.*

MERCHANTS' EXCHANGE, CINCINNATI, }
Chamber of Commerce, Dec. 30, 1864.

R. W. BURNET, Esq.,

President Cincinnati Branch U. S. Sanitary Commission:

Dear Sir: Your favor of this date is to hand, requesting the appointment of a committee from the Chamber of Commerce to examine the financial report of your Commission before it is given to the public.

I take pleasure in complying with your request, and have appointed for the purpose, Messrs. Adolph Wood, J. W. Sibley and H. Morris Johnston.

Yours truly,

GEO. F. DAVIS, *President.*

REPORT OF COMMITTEE OF CHAMBER OF COMMERCE.

To the Board of Officers of the Chamber of Commerce, Cincinnati, O.:

GENTLEMEN: The undersigned, a committee from the Chamber, appointed to examine into and report upon the financial operations of the Cincinnati Branch of the U. S. Sanitary Commission, by invitation of that body, beg leave to report as follows:

We have made a reasonably thorough examination, to us a *perfectly satisfactory* investigation, of the books and accounts of the Commission, which was much facilitated by the simplicity and precision of the system they have adopted in keeping them, from which we deduce the following facts:

In the three years, between the first of December, 1861, and the first of December, 1864, they have expended in the purchase of Sanitary Supplies, in the support of the Soldiers' Home in this city, and other aid extended to sick and wounded soldiers, the sum of \$223,975 38

And have distributed supplies donated, amounting, at a strictly fair and moderate valuation, to 856,000 00

Total \$1,079,975 38

Of the first sum, in the distribution of these stores, they have expended in the same time, three years, for a secretary to keep the accounts and attend to the correspondence (articles donated being acknowledged in detail), laborers to unpack, assort and repack in condition for shipment, the boxes, barrels and bundles of the various articles donated; drayage to and from their storehouse, and for freight to Cincinnati, and from Cincinnati to the points of distribution, eighteen thousand one hundred and forty-seven dollars and thirty-six cents (\$18,147 36), or *one and 68-100th per cent. of the whole amount*. In other words, it has cost *but little over one cent and a half on each one dollar's worth of supplies, to convey to and place in the hands of soldiers*, the munificent gift of the people of one million and seventy-nine thousand

nine hundred and seventy-five dollars and thirty-eight cents (\$1,079,975 38).

On the first day of December, 1864, there remained in the treasury ninety-six thousand two hundred and forty-six dollars and 20 cents (\$96,246 20), invested in United States securities, upon which they realize as they have need, obtaining the benefit of the interest meanwhile, which, up to the time of making the report, *exceeds all the expenses of the business from the commencement.* These securities were exhibited to us by their treasurer, the First National Bank, by order of the Executive Committee, who have furnished us with every facility at their command, in the pursuit of our investigation.

This Commission reports to no other, and the members are not directly responsible to any, except the people, for the manner in which their business is transacted.

So great has been the confidence of those whose trusts they were administering, that no question has been raised as to the propriety of their management, and no investigation has been thought necessary until asked for by themselves.

The high character for integrity and business ability of the gentlemen composing the Commission, gave promise that the work which they had voluntarily undertaken, without hope of pecuniary reward, would be well performed. How well that hope has been sustained, let the above figures testify. Certainly their labors have resulted in a more thorough and direct appropriation of the means furnished for this great charity, to their proper object, than any had reason to expect.

To them be the honor of applying so completely and so well what our people have so cheerfully given to relieve the sufferings of the brave defenders of Liberty and Union.

Respectfully, your obedient servants,

ADOLPH WOOD,

J. W. SIBLEY,

H. MORRIS JOHNSTON,

Committee from the Chamber of Commerce.

CINCINNATI, December 31, 1864.

FINANCIAL REPORT

OF

CINCINNATI BRANCH UNITED STATES SANITARY COMMISSION,

From December 1, 1861, to December 1, 1864.

The Executive Committee of the Cincinnati Branch of the United States Sanitary Commission, to whom was assigned the duty of preparing for publication a statement of its financial condition, respectfully submit the following report :

Total Cash Receipts and Expenditures.

December, 1861, to December, 1864 (received).....	\$320,221 53
“ “ “ “ (expended).....	223,975 38

The work involving the expenditure of the sum stated above, will be exhibited in detail in the accompanying tables.

It may be described as consisting mainly in the chartering and fitting out of hospital steamers and cars for the purpose of conveying relief to the wounded and sick at various camps and battle-fields, as Fort Donaldson, Pittsburg Landing, Nashville, Chattanooga, Memphis, Vicksburg, etc., and assisting in transporting them comfortably to the nearest hospitals; in the purchase of medicines and other articles not furnished by the Aid Societies, or not furnished by them in quantities commensurate with the demand; in maintaining a central depot, with the requisite clerks, porters and laborers, for receiving, assorting, repacking and forwarding sanitary stores; and in the maintenance of a Soldiers' Home.

The details of the cash receipts and disbursements will be exhibited in table “A.”

The total amount of Sanitary Stores distributed by the Branch, will be exhibited in table "B," which includes all articles purchased, as well as those contributed by the Aid Societies. We have to exclude from this exhibit a great many packages sent to us to be forwarded to particular regiments, companies and individuals designated by the donors, the contents of which were not known; as also a large amount of miscellaneous articles of which no record has been kept, such as Bibles, Testaments, books and pamphlets, pencils, pens and penholders, letter paper, envelopes, etc.

The conciseness of a financial report will not permit us to enlarge upon that part of the Commission's work usually denominated "Special Relief." A few items in this department are given, viz.: the amounts expended upon "Hospital Steamers and Cars," upon the "Home," and for "Transportation of Destitute Soldiers to their Homes." The aid furnished in fitting up hospitals and providing nurses and cooks; in procuring proper food and accommodations for the *Squirrel Hunters* and others who came by thousands to defend our city in times of *threatened invasion*; the efforts to procure a suitable resting place for the honored remains of the brave men who had returned, sick or wounded, from the battle-field to die, and which, with the generous assistance of the State legislature, and the Directors of Spring Grove Cemetery, resulted in the appropriation for that purpose of one of the most beautiful portions of *our* beautiful "City of the Dead;" and, other important labors, however pleasant it may be for us to dwell upon them, can not be noticed at length here.

A careful estimate of the value of articles distributed by this Branch, at prices far below what they would now cost, gives the following result, viz.:

Value of Contributions (estimated).....	\$856,500 00
" of Purchases.....	181,500 00
Total.....	<hr/> \$1,038,000 00

Those who feel a desire to know the relation which the above sum bears to the cost of getting that which it represents to the soldiers, can gratify that desire by comparing

with it the sum of the items in table "A," which embrace what is properly called the expenses of the Branch, viz.:

Salaries, etc.....	\$6,962 57
Freights, etc.....	4,978 36
Printing, etc.....	987 23
Drayage, etc.....	2,723 78
Sundries.....	1,678 86
Washing, etc.....	816 56
	<hr/>
	\$18,147 36

The percentage will be found to be a little below one and three-quarters per cent.

A statement of the "Disbursements on account of the Soldiers' Home," will be exhibited in table "C." The cost of maintaining this valuable institution, the first of its kind, as your committee believe, in our land, became, very soon after its establishment, too great for our then restricted means. Application was made to the Government for help, which was granted with a liberality which is shown in the amounts credited to the quartermaster's and commissary's departments in the statement. It has been, for a greater or less time, the comfortable home of 94,557 soldiers, furnishing them 442,375 meals, and, with its *doors open at all hours to all soldiers*, it stands this day in our midst a monument of the solicitude of a benign government, and the love of a generous people for their brave defenders.

The value of the work accomplished would be greatly enhanced, could we estimate the services rendered gratuitously by the quartermaster's department in transportation, by the Western Union Telegraph Company, the Express companies, steamboats and railroads, by the Board of Trustees of our public schools, who have furnished the rooms occupied since our organization as an office and a depot, and by those noble men who came forward promptly, when volunteers were called for, to go as surgeons and nurses on the hospital steamers.

In closing this report, we would, in simple justice to the members of the Cincinnati Branch, say, that in all the arduous labors performed by them, involving fatigue and expo-

sure, and often days and weeks of absence from their homes and business, they have neither sought nor received the slightest pecuniary compensation ; and now, at the close of the third year, they are working cordially and harmoniously with all other agencies which are endeavoring in any way to serve the soldiers of the Union.

R. W. BURNET,
THOS. G. ODIORNE,
CHAS. F. WILSTACH,
Executive Committee.

A CASH RECEIPTS AND DISBURSEMENTS FOR THREE YEARS, TO DECEMBER 1, 1864.
